in this book gene a plunka argues that the most important single element that solidifies all of genet s work is the concept of metamorphosis genet s plays and prose demonstrate the transition from game playing to the establishment of one s identity through a state of risk taking that develops from solitude however risk taking per se is not as important as the rite of passage anthropologist victor turner s work in ethnography is used as a focal point for the examination of rites of passage in genet s dramas rejecting society genet has allied himself with peripheral groups marginal men and outcasts scapegoats who lack power in society much of their effort is spent in revolt or direct opposition in mainstream society that sees them as objects to be abused as an outcast or marginal man genet solved his problem of identity through artistic creation and metamorphosis likewise genet s protagonists are outcasts searching for positive value in a society over which they have no control they always appear to be the victims or scapegoats as outcasts genet s protagonists establish their identities by first willing their actions and being proud to do so unfortunately man s sense of being is constantly undermined by society and the way individuals react to roles norms and values roles are the products of carefully defined and codified years of positively sanctioned institutional behavior according to genet role playing limits individual freedom stifles creativity and impedes differentiation genet equates role playing with stagnant bourgeois society that imitates rather than invents the latter is a word genet often uses to urge his protagonists into a state of productive metamorphosis imitation versus invention is the underlying dialectic between bourgeois society and outcasts that is omnipresent in virtually all of genet s works faced with rejection poverty oppression and degradation genet s outcasts often escape their horrible predicaments by living in a world of illusion that consists of ceremony game playing narcissism sexual and secret rites or political charades like children genet s ostracized individuals play games to imitate a world that they can not enter essentially the play acting becomes catharsis for an oppressed group that is otherwise confined to the lower stratum of society role players and outcasts who try to find an identity through cathartic game playing never realize their potential in genet s world instead genet is interested in outcasts who immerse themselves in

solitude and create their own sense of dignity free from external control most important these isolated individuals may initially play games yet they ultimately experience metamorphosis from a world of rites charades and rituals to a type of sainthood where dignity and nobility reign the apotheosis is achieved through a distinct act of conscious revolt designed to condemn the risk taker to a degraded life of solitude totally distinct from society's norms and values book jacket

2002 will mark the 50th anniversary of the publication of saint genet ever since that date jean genet's work has largely been read and interpreted through sartre's analysis of the author in this study the author seeks to liberate genet's fiction from the philosopher's stranglehold and reopen the work to new venues of

interpretation after challenging the accuracy and pertinence of Sartre's project and describing the problematic influence it has had the author begins his own investigation of Genet by examining the notion of precarious identity which informs the Genetian text through a dense web of textual maneuvers arises an aesthetically playful approach to sexual identity from the beginnings of work in the field of sexology homosexual desire has defied certain types of rigid schematization such as Freud's Oedipus complex indeed it can be better viewed through the alternative interpretive lenses of Deleuze and Guattari who challenge patriarchal order in the study of sexuality such an approach eventually leads to a discovery of the body's centrality in Genet's fiction especially in his last novel *Querelle* it is precisely this ludic body that has escaped Sartre's critical eye and many subsequent studies of Genet's literature

the 1966 staging in Paris of Jean Genet's *The Screens* by the Jean-Louis Barrault-Madeleine Renaud company was highly controversial written at the height of the Algerian war it was initially considered unperformable in France due to the violent political reactions it was bound to arouse the Barrault-Renaud production was directed by the venerable Roger Blin and during the several months of rehearsals that Genet attended he wrote a series of letters and notes to Blin giving his views on every aspect of the staging his comments deal with the details of that play and that production but also transcend them amounting to a precise and fascinating compilation of Jean Genet's concept of the theatre this volume also contains two essays by Genet originally published in the French periodical *un tel* giving his striking and highly personal views on life and art
